PROSERVE®

INSULATED CARRIERS AND PROFESSIONAL DELIVERY BAGS

PROSERVE® PROFESSIONAL DELIVERY BAGS

SAFETY

- Two inches of polyester insulation offers maximum thermal retention and no moisture or odor retention
- Large identification window allows for easy labeling of orders, dates and temperatures
- All bags are commercial dishwasher safe

DURABILITY

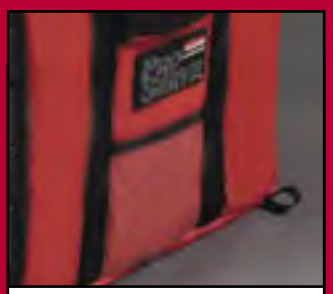
- Commercial-grade nylon exterior will not deteriorate with use and offers years of performance
- Commercial-grade zippers and closures protect food from heat loss

METAL GROMMET

- Allows excess steam release to maintain food quality

LABELING WINDOW

- Large content labeling window secured to each carrier



HANGING LOOP

- Provides easy storage and proper drying

COMMITTED TO INTERNATIONAL FOOD SAFETY COUNCIL FOOD SAFETY EDUCATION

PROSERVE® LIGHTWEIGHT INSULATED CARRIERS

SAFETY

- Keeps hot food hot and cold food cold safely for 4 hours with 4 layers of insulation
- PROSERVE® carriers weigh 40% less than competitive products decreasing risk of ergonomic stress
- Time temperature monitoring and labeling is easy with large identification window secured to each carrier
- Divider for 9F15 allows for separation within carrier into hot and cold food safe storage and reduces risk of cross contamination

DURABILITY

- Commercial-grade nylon exterior does not snag easily
- All components are commercial dishwasher safe and interior removable core is bleach safe

FOUR LAYERS OF THERMAL RETENTION

- Commercial-grade nylon exterior surrounds and protects the inner layers
- Expanded Polypropylene (EPP) interior insulation is lightweight and over 300% stronger than Styrofoam polystyrene

- Nearly an inch thick of non-woven polyester insulation and will not retain moisture or odor
- Reflective vapor barrier evenly maintains temperature throughout the carrier

EASY-CARE NYLON

- Protects carriers against rips, tears and stains. Complete with commercial-strength latches that close securely in a snap

ALUMINUM RUNNERS

- Allows metal or plastic pans to slide in or out easily

SKU	ITEM WEIGHT	HEAT RETENTION (heat loss per hour over 4 hourrs)	COLD RETENTION (heat gain per hour over 4 hours)
9F12	10.6 lb	5.5˚F	0.2˚F
9F13	14.9 lb	6.0˚F	0.4˚F
9F14	17 lb	5.7˚F	0.3˚F
9F15	6.3 lb	5.8˚F	0.5˚F
9F16	11.1 lb	5.2˚F	0.6˚F
9F18	11.3 lb	3.0˚F	0.4˚F
