

Infusion Tea and Coffee Brewer

Features

Perfect iced or hot tea or coffee from a brewer less than 12" wide

- Large tank provides back-to-back brewing capacity and allows 3 or 5 gallon (11.4 to 18.9 litres) tea batches.
- Dual voltage adaptable. Can operate at 120V/15 amp or 120/208-240V/20 amp.
- Two programmable batch switches allow full and half batches of iced tea.
- Brews into all BUNN iced tea dispensers (except TDS-5), 1.9 to 3.8 litre airpots, thermal carafes and can accommodate BUNN ThermoFresh® Servers.
- BrewWISE® intelligence with pre-infusion and pulse brew for maximum flavor extraction. Digital temperature control and cold brew lockout.
- Easy Pulse interface allows automatic programming of pulse routine.
- Energy-saver mode reduces tank temperature during idle periods.
- Display advertising messages and machine status.
- Brew counter keeps track of how many batches brewed.
- Models available with integrated flip tray that converts to three positions: thermal carafe, airpot and tea dispenser.
- Most models include graphic overlays for customizing user interface.
- English and Spanish alphanumeric display.
- Lower side faucet model available for self-serve locations.

Sweetener Model Features

- Each brew button's sweetener may be independently set.
- Easily adjust the volume of sweetener using the Sweet Meter.
- "Out of Sweetener" indicator - LCD blinks to aid operator.
- Separate inlet for sweetener - use existing CO2 systems or external 3rd party pump for sweetener delivery.

Additional models with other funnel and sprayhead configurations are available as make-to order items. Contact your BUNN sales representative.

Electrical: 120 volt, 15 amp. models require 2-wires plus ground service rated 120V, single phase, 60 Hz.

If wired for 120/208V or 120/240V, required 3 wires plus ground service rated 120/208V or 120/240V, single phase, 60Hz. An internal terminal block is configured for connection to a 3-wire plus ground.

Plumbing: 20-90 psi (138-621 kPa). Model supplied with a 1/4" male flare fitting. Requires minimum 1GPM water flow.

* Flip tray to funnel dimensions are the same for both trunk heights.
